

A MESSAGE FROM OUR CEO

I haven't always been a CEO. My 5.11 story began as one of the company's original product engineers. Back then, our mission was to innovate, and years later, it still is. We are committed to building answers for the future, working with our end users to design purpose-built product to solve problems.

For our Public Safety and Military family, this innovative spirit means we are here to support you, always. With the largest team of sales professionals and product engineers in the industry, we'll help you find solutions that fit your specific mission. 5.11 is innovating for the future, and we want you to be ready for it.

For our growing family in the general public, we are proud to support you with product based on our foundation of functional innovation and exceptional product quality.

This season we are excited to release a major update to our best selling RUSH® backpacks and a range of new casual styles for men and women–in addition innovative new offerings in uniforms.

Thank you,

J. J. Words

Francisco J. Morales CEO, 5.11 Inc.

We are innovators who make purpose-built gear for life's most demanding missions.

5.11 FABRIC FEATURES

Fabric is engineered to avoid snagging for long-term durability and easy wear while retaining its ability to move and stretch.

Achieved through fabrics that offer both stretch characteristics and durability.

Provides superior evaporation and heat management for comfort in hot and humid conditions.

Achieved through fabrics and construction methods that allow greater airflow and breathability.

While it has the resilience and sophistication of a knit, the Ryder Polo is also more outdoor friendly. Its gentle combination of fabrics has a contoured and soft feel, but still robust enough for exercise or spending the day in the sun. You might feel like you're wearing a tropical shirt, but it's definitely sophisticated enough to pass inspection for a business casual meeting.

5.11 O MEN'S TOPS

We call it the Performance Polo, but honestly, that's kind of an understatement. Made of jersey-knit 100% polyester fabric, this puppy is wrinkle, shrink, and snag-resistant, with moisture wicking and anti-odor properties. And it has a stay-flat, no-roll collar. The Performance also features collarbone and front mic-clip pockets and an embellishment friendly pen pocket. You could wad this thing up, stuff it in a cannon, and fire it down the range, and it would still look shiny and new. Imported.

WHAT THE "L"?

WATERPROOF BREATHABLE FABRICS - TECHNOLOGY & TERMINOLOGY

SOLID RATINGS

When you see features like 10K/10K noted on a piece of outerwear, we're not talking about social media followers but instead the waterproof breathable performance of the garment. The first number represents how much pressure is required to force water through the membrane, the higher the better. The second number represents how much moisture the membrane can transport away from your skin to be evaporated, the higher the better.

WATERPROOF RATINGS

1K: Rain resistant however briefly. Common rating for a garment with only a DWR coating.

5K: Can be called rainproof, but will not perform in extended periods of time or heavy downpours

10-15K: Will stand up to serious extended rain and heavy sleet/

20K+: Monsoon-ready

BREATHABLE RATINGS

5-10K: Comfortable for mild activity10-15K: Comfortable for most activity15-20K: Extended physical activity

When you see 2L, 2.5L and 3L called out as a feature, here's what it means...

2L

2 layered construction where a waterproof breathable membrane is laminated to the backside (interior-facing) of the shell fabric.

2.5L

2.5L = 2 layered construction as above plus a printed layer on the backside (the next-to-skin, interior-facing) of the fabric for the wearer's comfort.

ЗL

3 layered construction where the waterproof breathable membrane layer is laminated between the shell fabric and backer fabric. The backer fabric protects the membrane from wear and tear. This creates a more durable garment with lasting waterproof properties.

DWR = DURABLE WATER REPELLENT COATING

This polymer spray is applied to the outer layer of the garment. The polymer bonds to the fabric and causes water to bead up and roll off. Suitable for very

light rain or dry snow. DWR may be applied to 2L, 2.5L and 3L garments for a higher level of water repellency.

SEAM TAPING

In combination with the laminated fabric construction noted above, you will also see different taping methods called out. Seam taping is exactly what it sounds like, waterproof tape is applied over the construction seams to create a waterproof seal.

TYPES OF TAPING:

Critically Taped: Taping applied to seams with the highest exposure to rain like the shoulders, neckline and armhole.

Fully Taped: All seams are taped. Standard construction for garments with high waterproof ratings. Essential for garments designed for bad weather conditions.

THE GATEKEEPER

How does this keep you dry and comfortable? Like a gatekeeper, waterproof breathable membranes block water molecules (rain) from passing through yet allow water vapor (sweat) to escape.

This keeps you dry from the outside elements and comfortable by allowing your own body heat to transport vapor away from your skin through the membrane to be evaporated into the air.

BLOOD-BORNE PATHOGEN RESISTANT

In addition to preventing water from passing through, our membranes also prevent blood borne pathogens from passing through. Our BBP garments are tested according to ASTM-f-1671.

5.11° ALL TERRAIN LOAD ASSISTANCE SYSTEM TECHNOLOGY

We designed our A.T.L.A.S. Technology (A/T) to provide a more structured supportive and cushioning boot. If you're reading this, chances are you throw on a substantial amount of gear before you start doing work. Agility, stability and durability are essential footwear performance features, and they're reduced by carrying all the gear essential in law enforcement work. We've listened, learned and put our time and attention into a footwear system that enhances your agility, stability and provides a durable platform.

A/T boots feature a high level of built-in structure and layered cushioning to provide an exceptionally supportive boot for you and other end users like you. A new Ortholite® footbed and an axis plate for torsion and stability control help manage the weight. So too does the echo foam/force foam midsole, which enhances rebound with heavy loads.

KEY A/T Features:

- + Structured upper for support
- + Welded mesh for lightweight performance
- + Robust lacing system with locking ankle eyelet for secure all-day fit
- + Ortholite® footbed
- + Echo Foam high rebound PU and Force Foam lightweight cushioning footbed
- + 5.11 A.T.L.A.S. Technology Support Plate torsion board for stability
- + Aggressively treaded outsole with high-traction compound

Get your physical training off on the right foot. All the features of the All Terrain Load Assistance System (A.T.L.A.S.) are available in a shoe designed to help you undergo every kind of workout punishment you can stand. And some you can't.

The 5.11 A/T Trainer adds comfort and substantially increased agility, flexibility, and durability to your cross training, functional fitness and heavy workouts.

- + High abrasion mesh with welded support for structure

5.11° A/T MID

This is the 5.11 A/T Mid. That's mid-height, not mid-night, though it will find favor on that shift to be sure. Featuring 3D molded TPR toe and heel protection, a welded/mesh upper, and high performance, high traction outsole, the All Terrain Load Assistance System (A.T.L.A.S.) will mitigate the rigors of a heavy load bearing job (and in no small way, either). The mids were developed to work with your "work weight". Work longer, with less stress even when you're loaded down.

- + Welded mesh upper, 3D molded TPR toe and heel protection
- + ASTM slip and oil resistant high traction outsole

RESPONSE HL XR1

Whether you're sorting gear in the field, conducting SSE (Sensitive Site Exploitation) at a target location, or navigating an urban area in a blackout, you need a good light. You also need your hands free.

The Response HL XR1 is what you need for these and other missions. This powerful but unobtrusive wearable headlamp can throw significant illumination for long periods upon command, but is small and light enough to ride easily in an EDC pack or utility pouch until needed.

The Response HL XR1 pushes a thousand lumens at peak spot mode, with a two hour runtime. Switch it to flood mode with its independent light controls and get six hours of runtime. Rotate the lights as needed, and use the red COB light element to retain your night vision or reduce your working signature in the dark. Need to switch to a more direct manipulation? The headlamp is removable so you can use it as a right angle light.

RUSH100™ BACKPACK

Our first true deployment bag features the kind of versatility men and women in uniform deserve. The heavy-duty construction allows the hydration-compatible RUSH100™ to thrive in hostile environments, yet its modularity is the ideal response to fast-changing situations. Side pouches can be quickly detached and converted to a shoulder bag for effortless gear deployment. A first-grabs pocket keeps readily needed items quickly accessible and includes a fleece-lined eyewear pocket. Comfort is ensured for your heaviest loads by a padded, removable load-bearing waist belt, which keeps weight loaded on the hips and your essential survival gear close by. The adjustable shoulder straps with load lifters and a sternum strap keep things aligned on long hauls and dual compression straps with Duraflex® Autolock buckles ensure everything is tight. The custom flat aluminum frame provides rigidity, ergonomics and load transfer while the horizontal fiberglass rods provide torsional rigidity.

URBAN UTILITY RUCK

The wide-mouthed, spacious Urban Utility Ruck is a no-nonsense hauler for serious ruckers and designed to carry way more than the average backpack. It doesn't skimp on space with an eyebrow-raising 25L of volume to store a lot of heavy items for long-distance hikes, camping trips, and fitness jaunts. The zippered side pockets, bungee cord loops, and MOLLE panels allow you to organize and add on accessories or gear, while the generously padded shoulder straps help you carry your gear comfortably. Hydration and laptop compatibility makes it easy to load out this pack for adventure or everyday carry. We dare say it could practically double as a portable storage unit.

ALL HAZARDS PRIME BACKPACK

The polite way to describe the All Hazards Prime is that it's extremely durable. But let's get real: It's just plain meaner than your average bag. Designed with input from MACTAC instructors, the Prime's main compartment holds two Ammo Mules or other gear, while the front panel unzips 180° for full access to a MOLLE- and SlickStick®-compatible medical compartment. There's also an internal laptop sleeve, a dedicated hydration or armor compartment, and an all-purpose shove-it pocket for quick storage of a helmet or extra cargo. And because details matter, we added a fleece-lined sunglasses pocket, side-mounted retention lanyards, and a quick-grip top handle. Each compartment is lined with high-visibility orange to assist in low-light conditions. With the All Hazards Prime on your back, you and everyone else can breathe easier. Imported.

Reflective accents and laser-cut loop on the Operator ALS Pack

LOADBEARING GEAR

OPERATOR ALS BACKPACK

For what you do, you need gear you don't have to think about, let alone second guess. Meet the Operator ALS Backpack, with four removable, color-coded Easy-Vis Med Pouches and two long internal pockets to keep vital supplies within reach. A dedicated, padded compartment can be used for hydration, stowing your tablet or carrying a litter. The main compartment is primed for internal Gear Set placement. The ALS pack is smart and tough on the outside too. Its nylon 1050D body and waterproof poly 1000D base construction stands up to punishment shift after shift, and reflective pulls and piping help you stay visible. 20 H x 11.5 W x 8.75 D / 2135 cu. in. / 35L capacity. Imported.

The Operator ALS Backpack includes a Double Deploy Gear Set* with two individually removable stretch pockets to keep essential gear at hand and easily shared.

TAC OPERATOR ALS BACKPACK

The Tac Operator ALS is the Operator ALS Pack's tactical cousin with all 1050D nylon material and no reflectivity. With the included Double Duty Gear Set™, four (4) color-coded Easy-Vis Med Pouches, and additional real estate configured for both internal and external Gear Set™ mounting, the Tac Operator has plenty of room for both necessities and niceties... though hopefully you have a priority on the former.

A pair of long zippered internal pockets and a two-way to pocket will help keep your equipment organized strategically. So too will the dedicated laptop/hydration (or litter) compartment, and you'll note the exterior of the pack features laser-cut MOLLE side panels, compression straps, and additional pockets on the waist. The pac also features a quick pull handle, aluminum top carry handle, and quick release shoulder straps with comfort yoke. Let the Tac Operator ALS shoulder the heavy lifting when it comes to organizing and hauling your gear.

Carry the Emergency Ready Pouch or stage it aboard a vehicle as your intent or mission demands it. Dual zippers provide quick access to an extensively organized interior with dividers, pockets, and internal elastic bands to compartmentalize and secure its contents. There is also a stretch front pocket for a tourniquet or bandage with clotting agent and a heavy duty mesh slip pocket at the rear for other necessities.

Carry it courier style or around your waist with the adjustable quick-release strap. Or tuck the strap away and use the top and bottom grab handles to go hands-on. All told, the Emergency Ready Pouch will stow up to 3L worth of gear. The Emergency Ready Pouch is constructed of 420D nylon and the base is a formidable N1050D. A 6 in. x 1 in. loop-side tape holder is included for name or callsign tape, squad designator, or other hook-back patch.

Multi-layered internal organization including a zippered stretch pocket at the center.

The Emergency Ready Bag's name explains it all. Bail out with it and buy some time for the ambulance to arrive, or if you're the medic, organize all your trauma kit and have it ready to hand. You can haul it as a crossbody bag with a removable shoulder and waist strap or carry it with top and grab handles, it just depends on how far you need to go and what you're responding to.

The Emergency Ready Bag folds open in a partial clamshell to allow full access from the top without letting everything spill out. Org out your kit with its endless pockets, dividers, a stretch woven center zipper pocket and elastic retention bands which make it easy find and quickly access your supplies. Additional heavy duty slip pockets at the rear and stretch front pockets with internal elastic bands for tourniquets provide additional organizational measures. A 6" x 1" loop-side tape holder is included for name or callsign tape, squad designator, or other hook-back natch

ZERO-G PLATES

Research-Driven Design:

Zero-G Plates distribute the load of duty equipment correctly by utilizing the body's natural-weight bearing structure. Specifically, the Zero-G Plate positions the weight of your duty belt properly on your hip and through to your femur.

Promotes A Spine-Safe Posture:

Unlike the traditional front-load duty belt, which increases forward pressure on your lumbar spine and can prevent abdominal muscles from properly firing, Zero-G Plates promote correct posture through their ergonomic shape and precise application. Low-Profile

Zero-G Plates maintain a neat, clean, and professional appearance with a minimal profile. Made from a non-reflective carbon-fiber material and overmolded for comfort, the plates are durable and easy to use. The inner face of the Zero-G plate features a large loop-sided panel that securely adheres to your inner hook-sided liner belt.

PLUS EASY HOME WASH & WEAR

We took a page out of the 5.11 operator playbook and came up with the Quantum TDU® Shirt. It's made with the kind of fabric engineered for high-level performance, where the smallest detail can make a world of difference. We built the body with FlexLite ripstop fabric with Teflon™ to give you freedom of movement and protection from water, oil, grease and dirt. The shoulders are Fast-Tac® fabric for flexibility and the rear panel is abrasion-resistant jersey for stretch and next-to-skin comfort.

Constructed with our mechanical stretch Flex-Tac® ripstop fabric, the Stryke EMS Pant will outperform any EMS pant out there. A gusseted construction frees you up to move through the most challenging situations. Mission-specific, thigh-mounted cargo pockets with internal compartments, outer pockets with retention straps and welted rear pockets plus front thigh pockets and lower calf pockets for storage options. We finished the Flex-Tac® fabric with Teflon™ for stain and soil resistance. The double layered knees are kneepad ready. Imported.

- + 80% polyester/ 20% cotton Flex-Tac® mechanical stretch ripstop, 6.8-oz.,
- + Comfort waistband with stretch panels and inside gripper elastic
- + Nylon reinforced front hand and scissor pockets with tape straps
- + Expandable cargo pockets and canted lower leg pockets
